Viewers of the digital edition of the magazine can simply click their mouse on any listing to be taken directly to the respective company's website.

INVERTER DESIGNED TO POWER REFRIGERATORS

Xantrex/Schneider Electric, Burnaby, B.C., Canada, has designed the Freedom X1200 to operate residential fridge and other sensitive electronics. The Freedom X1200 offers true sine wave power, extended 2X surge rating, transfer relay and hard-wire capability in one compact package. The Freedom X1200 also offers improved robustness to reverse polarity and enables OEMs to conduct in-line hipot tests from line to load. Quick connect AC in/out terminals enable fast and easy wiring on the assembly line. Low battery voltage disconnect and alarm/shutdown preserve battery capacity and minimize battery drain.

AUXILIARY HEATERS

Aqua-Hot Heating Systems, Frederick, Colo., presents the Aqua-Hot Work Ready heater. These heaters come in six different models providing quiet and comfortable heat ranging from 4,000 to 30,000 BTUs. Using vehicle coolant as a heat source, they are powered by low-amperage 12V fans, rated from 1/2 to 7 amps. Aqua-Hot Work Ready Auxiliary heaters allow RVers to put heat where they want it, when they want it.
